Washington, D.C. 20231

Sir:

Pursuant to the provisions of 37 C.F.R. 1.47(a), Applicant hereby petitions for filing of the above-identified patent application when a joint inventor cannot be found or reached after diligent effort. Proof of the pertinent facts is given below.

When the application was filed, one of the inventors, Gerald S. Hurst, could not be located. In response to a Notice to file Missing Parts, Applicant filed a petition under 37 C.F.R. 1.47 on January 12, 2001 advising that this inventor could not be located, and requested that the application proceed to examination. A copy of that petition is attached hereto for reference. It states that the last known address of this inventor was 39 Painted Sunset, The Woodlands, Texas 77380.

Our firm received a telephone call from John Gillon, attorney in the Petitions Office, that the file had been reviewed but that the petition under 37 C.F.R. 47 did not include a showing that attempts had been made to locate this inventor.

The undersigned contacted the assignee and was informed that the inventor's last known address was still the above. He then sent the inventor a letter by Federal Express with a copy of the application and a request to execute the Declaration. A copy of that letter is attached hereto.

To date, no response has been received to this letter.

Applicant submits that the co-inventor, Gerald Hurst, cannot be reached after diligent efforts have been made, and requests that this application be filed and prosecuted on behalf of the joint inventors pursuant to 37 C.F.R. 1.47 (a).

CONCLUSION

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned.

Respectfully submitted,
